Mr. Joshua Cogliati
962 11th Street
Idaho Falls, ID 83404-5057

Dear Mr. Cogliati:

DERIVATIVE DISSEMINATION LICENSE FOR PEBBLES

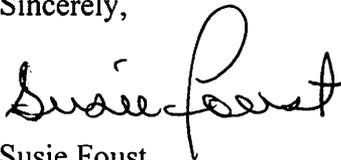

This is in reply to your letter of December 4, 2012, requesting a license for Joshua Cogliati to prepare and distribute derivative works from the copy of the PEBBLES software obtained from ESTSC. The following statement of the Department of Energy's (DOE) position is provided as the ESTSC response to the request.

"It has been the DOE practice (where the case permits) to encourage private companies or individuals to modify, enhance or make derivative works of unrestricted software sponsored or supported by DOE for the purpose of commercialization of such modifications, enhancements, and/or derivative works. Accordingly, Joshua Cogliati may consider they have a nonexclusive, United States-wide, royalty-free license to make derivative works (modifications and enhancements) from the copy of PEBBLES obtained from ESTSC, and to copy, license and distribute those derivative works for use, modification and enhancement, and further sublicensing and distribution.

The derivative versions of PEBBLES which you develop may be of interest to the DOE organizations which ESTSC supports. We would appreciate getting copies of the derivatives and would adhere to the dissemination limitation markings which you define.

If you have questions or comments, please call me at 865/576-2606.

Sincerely,

Susie Foust
